**Attachments:** RA-WVDEP Secretary Call\_May 2021.docx

Hi Mark,

Attached and below are ARD's TPs for WV. On the first issue, there's a call today with WVDAQ. Would you like us to provide an updated bullet tomorrow on the outcome of the call? Please advise – thanks!

**ETHYLENE OXIDE** *(For Discussion)*

- We have completed risk exposure modeling for 2 Union Carbide facilities—South Charleston and Institute.
- Using air dispersion modeling inputs (local meteorology and facility-based information) from WV Division of Air Quality (WVDAQ), the risk for populated areas remain high.
- A call with WVDAQ is scheduled for April 29 to discuss next steps. It most likely will include air monitoring at the communities to confirm modeled results.

**Nonresponsive based on revised scope**
